

Your guide to starting on Letairis

Letairis[®]
ambrisentan
5 mg and 10 mg Tablets

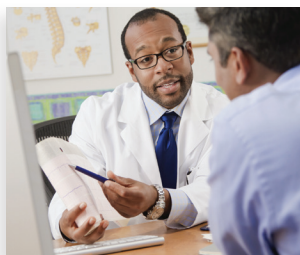

Please see full Prescribing Information, including Medication Guide with **important warnings**, inside pocket.

You and your healthcare team have decided that **Letairis is right for you**

Here are 3 steps to help you get started.

Step 1:

Complete the Letairis Enrollment and Consent form with your healthcare provider

You will need to provide the following:

- Your insurance information
- Your signature on the form

If you are female, you must also enroll in the Letairis Risk Evaluation and Mitigation Strategy (REMS) Program, due to the risk of serious birth defects. You must agree to all instructions in the program.

- If you are a female who can get pregnant, you must also
 - Use appropriate birth control
 - Have a negative pregnancy test before you start taking Letairis, monthly before you receive your refills, and one month after stopping treatment with Letairis

Males are not required to participate in the REMS Program in order to receive Letairis.

Because of the risks associated with Letairis, it is available only through a specialty Certified Pharmacy. Upon receiving your signed enrollment form, a LEAP Case Specialist will review the information to determine which Certified Pharmacy will ship and provide your Letairis.

The Certified Pharmacy will coordinate with your doctor to obtain any additional information required by your insurance provider.

How LEAP Can Help

The Letairis Education and Access Program (LEAP) is available to both male and female patients to assist with access and financial support for Letairis therapy.

You can contact a LEAP Case Specialist to discuss different programs available at 1-866-664-5327 (See back cover).

Please see full Prescribing Information, including Medication Guide with **important warnings**, inside pocket.

Step 2:

Your Certified Pharmacy will call you to coordinate your prescription. It is very important that you answer any calls from the Certified Pharmacy

- You will need to personally talk to the Certified Pharmacy in order to obtain your prescription(s)
- The Certified Pharmacy will review your out-of-pocket cost for Letairis. If you are not able to afford your co-pay or co-insurance, let your Certified Pharmacy know
- The Certified Pharmacy will need to coordinate your medication delivery by confirming your shipping address and your availability to sign for delivery. Your prescription will be mailed to you from a Certified Pharmacy

If Letairis is prescribed in combination with tadalafil, the Certified Pharmacy may coordinate fulfillment of both prescriptions.

Step 3:

Sign for delivery when Letairis is shipped to your home

- If you have not received your prescription 25 days after your last shipment or if you have any questions regarding this process, call your LEAP Case Specialist at 1-866-664-5327 or call your Certified Pharmacy

If you have any questions about the status of your prescription and the resources that LEAP could provide, you can call your LEAP Case Specialist at 1-866-664-5327.

Call your LEAP Case Specialist at 1-866-664-5327

- To check the status of your Letairis prescription
- If you have not received your prescription 25 days after your last shipment
- For any questions about how to obtain Letairis, including financial support

Make sure to answer your phone if you see this number.
Your Case Specialist may need more information to process your prescription.
